Foreword

For more than 20 years GRAND CANYON has been developing and producing quality outdoor and camping products for modern family campers and those who want to enjoy outdoor living, with a certain amount of comfort and cosiness.

After so many years it was time for us to sit down and take a good look at our brand GRAND CANYON again. First, we have had to recognize that the visual appearance of the brand has become slightly outdated. Plus, the longer we looked, the clearer it became to us that the brand was not equally recognisable in all its product lines and lacked a focussed brand identity.

So, to strengthen the brand and prepare it to compete in the market successfully from season 2018 onwards, we gave GRAND CANYON a fresh visual appearance and breathed new life into the brand.

More than ever before, GRAND CANYON stands for; enjoying the life outdoors and comfort camping with family and friends – never alone: Family • Adventure • Camping.

With this new brand appearance - which is reflected above all in the new logo, a new colour scheme, new fonts and a clear design language in brand and products - we bring GRAND CANYON to the front in all sales channels as a fresh and modern camping brand.

If you have any questions about the workbook you hold in your hands, please do not hesitate to contact us. We'll be happy to help you!

That said, let's venture into the world of GRAND CANYON.

FAMILY • ADVENTURE • CAMPING

The Grand Canyon story

For at least a couple of thousand years humans have explored and lived near the GRAND CANYON – a 446 kilometre long, 1.6 kilometre deep and up to 29 kilometres wide canyon centered around the Colorado River.

This overwhelming landscape possesses at the same time a stunning beauty and deadly ruggedness that demands respect and foresight. The distances are extreme, the rocks are coarse and the sun is as relentless as the nights are cold. In this wild place you truly need to trust yourself and your equipment, and that is the reason why we have named our series of family camping and outdoor equipment after the GRAND CANYON.

No matter whether you hike the gorge, kayak on the Colorado River or simply enjoy camping at one of the rims, the GRAND CANYON range provides you with the essentials for living outdoors, combined with a lot of practical details and always a good portion of comfort. Explore and enjoy the freedom of being outside and feel the spirit of nature, but with comfort.

Since 1993 GRAND CANYON is Family Adventure Camping at its best.

Tents

GRAND CANYON tents are characterised by high quality fabrics, careful processing and high functionality. The range stretches from beach and garden tents to trekking tents and comfortable and spacious camping tents for family holidays. All at a fair and affordable price/quality level.

Sleeping Bags

To ensure a good nights sleep, you need a good sleeping bag – and the GRAND CANYON range proves that a good sleeping bag doesn't necessarily have to be expensive. Here you can find the right companion for almost every occasion – from lightweight summer sleeping bags to three seasons models and warm winter bags. Siliconized hollow fibres guarantee the best possible insulation, long life and easy care.
